Landrex Technologies Acquires Teradyne's Optima AOI Product Line

Landrex Technologies Co., Ltd., Asia's largest manufacturer and supplier of printed circuit board(PCB) test fixture solutions, announced today that it has signed an agreement to acquire Teradyne's Optima TM Automated Optical Inspection (AOI) product line, which it plans to market globally. Included in the acquisition are patent rights and other intellectual property. Landrex will continue as a Teradyne Authorized Representative (TAR) in South China and Taiwan for In-Circuit Test (ICT) products.
